## U.S. Environmental Protection Agency Reviews Cleanup at Liberty Industrial Finishing Superfund Site

The U.S. Environmental Protection Agency (EPA) is conducting its second five-year review of the **Liberty Industrial Finishing Superfund Site**, located in Farmingdale, Nassau County, New York. The purpose of this five-year review is to ensure that the remedy is functioning as intended and continues to be protective of public health and the environment. A summary of the cleanup activities and an evaluation of the protectiveness of the implemented cleanup remedies will be included in the five-year

### What is an EPA Five-Year Review?

The purpose of five-year reviews is to ensure that implemented remedies at Superfund sites function as intended and continue to be protective of human health and the environment. These regular reviews, which are required by federal law when contaminants remain at a site, include:

- Inspection of the site and cleanup technologies;
- Review of monitoring data, operating data, and maintenance records; and,
- Determination if any new relevant regulatory requirements have been established since EPA's original cleanup decision was finalized.

### When will EPA's Five-Year Review Report be available?

It is anticipated that the five-year review report will be available at the website noted below by February 28, 2017.

### For more information

There are several ways to review information on this site. The Administrative Record, which includes EPA decision documents used for selecting the cleanup remedy, is available for public review at the information repository listed below. Project information is also available online at the website noted below.
