2	SUPERVISOR SALADINO: Good morning,
3	ladies and gentlemen, and thank you for
4	joining us at our meeting of the Oyster
5	Bay Town Board. For those joining us this
6	morning, you have an opportunity to be
7	heard on matters brought before the Town
8	Board, as well as during the public
9	comment period at the end of the meeting.
10	As always, this meeting is being
11	live streamed on social media and on the
12	Town's website, which is
13	www.Oysterbaytown.com. These proceedings
14	are recorded and later transcribed.
15	Please know that your voices are
16	very important to us. Statements,
17	comments and input from the public
18	relative to our meetings is always
19	welcomed and respected. And of course,
20	our rules are that we respect everyone
21	who is speaking at the podium. To submit
22	comments online, you can e-mail us at
23	Publiccomment@oysterbay-ny.gov. I'll
24	give that to you again:

2	can e-mail us at the Office of the Town
3	Attorney, which is 54 Audrey Avenue,
4	Oyster Bay, New York 11771.
5	We begin every town board meeting
6	with prayer. Those of you who are here on
7	a regular basis, you know that. And today
8	we have a good new friend leading us in
9	prayer. His name is Pastor Miguel
10	Vasquez, and he's director of prayer and
11	outreach at Living Faith Christian Church
12	in Farmingdale.
13	Pastor Miguel. Thank you, Pastor.
14	Welcome to Town Hall. The floor is yours.
15	Let's all rise, please.
16	PASTOR VASQUEZ: Thank you,
17	Supervisor, for this opportunity. My
18	honor and privilege to be able to pray on
19	behalf of this board meeting.
20	So if we could just lower our heads
21	and close our eyes.
22	Heavenly Father, we thank you for
23	breathing life into us today, Lord God.
24	And then I have the honor and the
25	privilege, Lord, of using that breath,

2	Father God, to lift up this board of the
3	Town of Oyster Bay to you today, asking
4	for your wisdom, your guidance, and your
5	discernment in their decisions. Grant
6	them the strength to lead with integrity,
7	fairness, and compassion.
8	May they seek the common good,
9	prioritizing justice, peace, and the
10	well-being of the people of Oyster Bay.
11	Guide their hearts to be humble and their
12	minds to be focused on the truth and
13	righteousness. Help them to be good
14	stewards of the responsibility entrusted
15	to them, making choices that reflect your
16	will and promote unity. Protect them from
17	corruption and pride, and give them
18	courage to stand for what is right, even
19	when it is difficult.
20	And I also want to petition on
21	behalf of Omer Nuetra from Plainview, who
22	is currently being held hostage in the
23	Middle East. Father, I just pray, Lord,
24	that you would make your presence felt to

2	SUPERVISOR SALADINO: Ladies and
3	gentlemen, this the time to remind
4	everyone who is here at the board
5	meeting, watching this online and so
6	forth, that this is October and,
7	therefore, Breast Cancer Awareness Month.
8	Far too many residents face the
9	overwhelming shock of a breast cancer
10	diagnosis, and they are flooded with
11	information, worried about loved ones and
12	at times unable to afford treatment, all
13	while staring down life's toughest
14	questions.
15	During the month of October, we
16	rededicate ourselves to supporting
17	patients and their families, and
18	especially raising awareness about the
19	life saving importance of early
20	screening. Get screened early. Get
21	screened often. Please encourage your
22	loved ones to get the screening that will
23	make the difference in so many cases
24	between life and death.
25	We honor all of those who have lost

2	their lives to this terrible disease, and
3	celebrate the courageous survivors and
4	advocates fighting to beat it, along with
5	the loved ones and medical providers who
6	have their backs every day.
7	It's also appropriate to remember
8	Mary, who was a beloved member of the
9	Town of Oyster Bay family. Thank you.
10	Folks, today, the Town Board also,
11	besides our Regular Action Calendar, we
12	host our Budget Hearings this morning and
13	another continued budget hearing, one
14	hearing, but we continue it tonight at 7
15	p.m. to receive public comment on the
16	2025 proposed budget.
17	Just a little bit of information on
18	this budget. I won't go on too long
19	unless there are questions.
20	Despite the national economy
21	experiencing the highest inflation rate
22	in 40 years, which could be even larger
23	because the federal government only
24	selects certain items to determine
25	inflation. We believe it's even larger
	TOP KEY COURT REPORTING, INC. (516) 414-351612

	TOBAY TOWN BOARD SPECIAL PRESENTATION 10.15.2024
1	
2	than that, perhaps one of the largest
3	inflation rates the United States has
4	ever seen. That in mind, it underscores
5	this is the seventh consecutive tax
6	freeze budget proposed by our
7	Administration. This budget contains
8	seven years without a tax increase during
9	the highest inflation rates that we have
10	ever seen.
11	This budget continues to sustain a
12	\$1.3 million property tax cut that was
13	approved by this Town Board in 2018. That
14	means in total, \$10.4 million are back in
15	your pockets in the pockets of our
16	taxpayers, rather than in the coffers of
17	town government.
18	This tax freeze is once again
19	possible thanks to spending restraints,
20	efficiencies, debt reduction initiatives,
21	and many more aspects that we have put
22	into place by this Town Board. And I
23	thank them all with great appreciation
24	for their steadfast efforts to be in
25	lockstep as we put our taxpayers first,

	and close behind our taunauana and the
2	and close behind our taxpayers are the
3	quality of our services, which we are
4	very, very proud of.
5	The proposed budget for 2025
6	continues to pay down debt. There has
7	been a net reduction of over \$186 million
8	of net reduction in our capital debt.
9	Since first taking office, we've
10	successfully reduced the Town's debt by,
11	as I mentioned, upwards of \$186 million,
12	while eliminating the \$44 million
13	multiyear deficit that previously
14	existed.
15	Through our fiscal conservative
16	budgets, we produced seven consecutive
17	budget surpluses. So we cut taxes, we've
18	been repaving the roads, redoing the
19	fields, upgrading the parks, the
20	bathrooms, replacing the streetlights,
21	protecting all of your property, the
22	Town's facilities. And we've been able to
23	do that by cutting taxes, freezing them,
24	producing surpluses each and every year
25	and bringing down the capital debt. And

that's something we are all very, very proud of.

The days of deficits are long gone, but don't borrow for operating costs. There are no gimmicks, no one shot revenues. This proposed budget is fully balanced in every aspect and every subgroup of our budget, and it does not rely on any borrowing whatsoever.

We continue to restrict new spending while investing in our roadways. In fact, now 40% of the Town's streets have been repaved on our watch, meaning our watch. And the cost just to mill and repave the street is over \$1 million a mile all in, and the cost of a total rebuild, meaning the drainage, the roadbed, the sidewalks, the curbs, over \$2 million per mile. And we've done 40% of our roads. We have over 700 lane miles of road in this town. So a quick math calculation would lead you to say, wow, how were you able to do all these other things besides just roads? How were you able to replace all the

TOP KEY COURT REPORTING, INC. (516) 414-3516 _____15 _

2	fields, rebuild the beach every year when
3	that gets destroyed and still have money
4	to borrow to replace all the Town's
5	lighting, fix all the buildings, replace
6	the heating and air conditioning with
7	highly efficient equipment, and just
8	continue to build up our firewall on our
9	data, and all that we do from a computer
10	or a data side is very expensive. It goes
11	up every year, and yet we continue to do
12	that.
13	We've also Continued to invest in
14	the pools and the resources. We've
15	combated zombie homes, taking down over
16	25 homes now when that was a major
17	problem. People remember that being a
18	front page story in our daily newspaper.
19	We've combated this and brought down more
20	homes than any other municipality on Long
21	Island.
22	With the economy at the forefront of
23	our minds, this proposed budget ensures
24	full funding to help our residents find
25	meaningful employment and opportunities

Ţ	
2	through workshops, classes, partnerships,
3	job fairs, bringing employers and
4	prospective employees together.
5	We've moved forward in our
6	Department of Planning and Development to
7	prioritize the workforce and to process
8	building applications at a much faster
9	pace. We have many items that are same
10	day permits. People come in and walk out
11	with their permit on the same day. And
12	we've won awards for items like being the
13	most pro solar town on Long Island
14	because of these same day permits.
15	We've kept outdoor dining open
16	through 2025 at no cost, and we will
17	continue to do that. Back during the
18	pandemic, we were leaders getting state
19	government to provide allow outdoor
20	dining at an earlier phase than the
21	governor had wanted to at the time. We've
22	kept our downtowns vibrant, stores
23	filled, we supported small businesses and
24	not for profit organizations with federal
25	grants, not loans that they had to pay

2	back, but grants to all the nonprofits,
3	large and small, to all of the small
4	businesses. Everybody who applied and met
5	the criteria got the grant money. And
6	then we gave \$50,000 grants to Chambers
7	of Commerce to help them to assist with
8	local shop local initiatives.
9	We funded in this budget an
10	initiative known as Oyster Bay Today,
11	which aims at attracting tourism and
12	boosting the local economy, attracts
13	people to dine and come to Oyster Bay for
14	historical tourism, and we've got plenty
15	of it, and so much so that we believe
16	that President Roosevelt would be very
17	proud to see where our town is at this
18	time. And I've heard that from his great
19	grand nephew directly.
20	This budget continues to invest that
21	money in downtown revitalization. In
22	Hicksville, nearly 190 new residential
23	units, along with retail and restaurant
24	space, are under construction at numerous
25	locations, 99 Newbridge Road is one of

them. This represents a \$111 million
dollar investment by Alpine Residential
Development. It's just one of many, many
projects that we have.

In all, over 500 new housing opportunities will be built in Hicksville alone. These projects, along with the \$132 million investment by the MTA for the new Hicksville railroad station, will continue to transform Hicksville. And we are moving very quickly to get shovels in the ground on all of the DRI projects.

Now, plans are developing at the private sector as they transform the Broadway Commons and the former Sears site to be greater economic engines.

Just real quick on our bond rating -- and then I know I'm going on too much. I apologize, but I hope it shows how proud I am, and we are, about where we've gone in this town from 2016, in comparison to today in 2024 as we prepare for 2025 -- we have built our success on our overall operational and financial

2	success. We work closely with the Budget
3	Office. We work closely with the
4	Comptroller's office led by consummate
5	professionals with enormous talent. Our
6	financial success has been recognized
7	with nine credit rating upgrades from two
8	independent Wall Street firms, the latest
9	of which was awarded in August. We now
10	have a double AA three and a double AA
11	minus credit ratings. When you think
12	about where we were in 2016, 2017, junk
13	bond status; junk bond status. We cut
14	taxes, which is the opposite of what Wall
15	Street wants you to do. They want you to
16	keep raising taxes to upgrade your credit
17	rating, but instead we cut taxes and we
18	froze them for seven consecutive years.
19	Wall Street would look at that as
20	horrific until they looked carefully on
21	what we have accomplished in every other
22	segment of our finances. They see that we
23	no longer have a deficit. They see the
24	surplus. They see how we've worked to cut
25	back on our capital debt. And they've

gone over our books with a fine tooth
comb and awarded us. Now we're just a few
notches away from a perfect Triple-A bond
rating while continuing to freeze taxes.

So the services are better than ever before. We're keeping costs down. On average, the average resident pays \$144 a month toward the Town. Everybody knows you have your school taxes and then you have your general taxes. We don't keep all the general taxes. We keep a small portion, about 13% of your property taxes go to the Town of Oyster Bay. And if your home's assessment hasn't changed -- we don't do the assessments that's done out of the County -- If your assessment hasn't changed, your town taxes have not changed. So \$144 a month for all the services that you get. And many of the things you don't see, like our restoring the beach, costs us millions of dollars every year, all of the restorations and making the equipment and the property that you own much, much better for less

Why do I say all this with such enthusiasm? Because we're extremely proud. We don't pat ourselves on the back, but it is budget time. It is our time to report to you where we were, what we've done, and how we've continued to knock the ball out of the ballpark. And we're exceptionally proud about that. I'm not going to read all the other things that we have. It will take all week to give you a long list of all the accomplishments. But in a nutshell, that's where we are.

It's also important to mention that we continue to receive national awards. We received a national award for our transparency in financial reporting. We're off the state Comptroller's stressed, financially stressed list off of it, not downgraded, off of it

_____TOP KEY COURT REPORTING, INC. (516) 414-3516 _____4 ___

	10.15.2024 TOBAY TOWN BOARD HRG 1 (morning)
1	
2	The budget in 2025 is very similar to
3	what it was in 2024; whereas, leaving the
4	tax levy the same way it was in this
5	current year, no increase to the
6	residents. Spending is up roughly \$4
7	million, which is roughly 1%. And that's
8	in the area of medical benefits. We incur
9	roughly a 7 to 10% increase in the
10	medical benefits that we provide to our
11	employees. And we're very proud to
12	provide to our employees, they get a fair
13	salary, and they get the best benefits
14	that money can buy.
15	SUPERVISOR SALADINO: Just to stop
16	you for a moment, one quick question. So
17	everyone watching at home or here
18	understands. Not only do we provide very
19	high quality benefits, but that is also
20	mandated by New York State; is that
21	correct?
22	MR. DARIENZO: It's mandated that we
23	provide medical insurance. Absolutely.
24	So those fees we are budgeting for a
25	\$4 million increase
	TOP KEY COURT REPORTING, INC. (516) 414-3516

1	10.15.2024 TOBAY TOWN BOARD HRG 1 (morning)			
2	SUPERVISOR SALADINO: And we choose			
3	to use the same system that New York			
4				
5	State provides to all state employees across the state and school districts,			
6	and on and on, other municipalities doing			
7	the same plan as the other			
8	municipalities.			
9	MR. DARIENZO: I don't have a log of			
10	all of what everyone does, but it's my			
11	understanding that we have the same plan			
12	that most, not everybody has, most.			
13	SUPERVISOR SALADINO: Most. I stand			
14	corrected. Okay, thanks.			
15	MR. DARIENZO: We're budgeting a \$4			
16	million increase in 2025 for this			
17	purpose, which is the entirety of the			
18	increase that's shown in our budget.			
19	We're able to increase our budget by \$4			
20	million while not increasing taxes by			
21	increasing our interest earnings line.			
22	We've budgeted conservatively in interest			
23	earnings over the past couple of years.			
24	While we've seen interest rates			
25	skyrocket, they are starting to come down			

1	10.15.2024 TOBAY TOWN BOARD HRG 1 (morning)				
2	now within the past month. But with that				
3	being said, the amount that we're				
4					
5	budgeting next year is still inline with				
	what I project interest rates to be next				
6	year, which should be enough to cover the				
7	increase in health insurance.				
8	Basically, we've been budgeting				
9	conservatively on the expense side and				
10	the revenue side, so we have room to				
11	increase certain revenues without having				
12	to hit the tax line. We're not going to				
13	be able to hold the line on taxes				
14	forever. But we are, again, for the				
15	seventh year in a row, able to do so				
16	without an issue.				
17	SUPERVISOR SALADINO: Thank you. And				
18	just to put it in perspective for the				
19	public, last year, we've been doing this				
20	since 2017, budgeting very				
21	conservatively, downgrading what we				
22	expect our revenue to be, upgrading what				
23	we expect our expenses to be. By doing				
24	that it is 2024, so our audit came out				
25	in in June of 2024 for our audit for the

2	year prior, the '23 audit in '23
3	which we also use this same strategy
4	in 2023, was there an actual surplus in
5	that one year in terms of our budget?
6	MR. DARIENZO: In 2023, there was a
7	surplus. It was north of \$10 million.
8	SUPERVISOR SALADINO: And for 2024,
9	do we expect when June comes around and
10	and they crunch the numbers on our budget
11	to expect another surplus for 2024?
12	MR. DARIENZO: At this time? We do
13	expect a surplus for 2024. I wouldn't
14	want to project an eight figure surplus
15	north of \$10 million again. But honestly,
16	I've been saying that we shouldn't have a
17	north of a \$10 million surplus for the
18	past three years, and we have each year.
19	So we'd like to under-promise and
20	overdeliver. So as we stand here today,
21	we project a moderate surplus as a part
22	of the results of operations for 2024.
23	And then we'll see next June exactly
24	where that number shakes out. But it will
25	be in the black, not in the red.

	10.15.2024 TOBAY TOWN BOARD HRG 1 (morning)				
1					
2	SUPERVISOR SALADINO: And that's the				
3	message. It is accurate that we have				
4	consistently, after the year is all done,				
5	produced a surplus by spending less and				
6	controlling our spending and embracing				
7	every efficiency. And there's no reason				
8	that that won't continue on.				
9	MR. DARIENZO: There is certainly no				
10	reason to believe that it won't be great				
11	again this year.				
12	SUPERVISOR SALADINO: Does anyone				
13	have any questions?				
14	(Whereupon, no verbal				
15	response.)				
16	SUPERVISOR SALADINO: Thank you, Mr.				
17	Darienzo.				
18	At this time, is there any member of				
19	the public that would like to be heard				
20	commenting on our budget??				
21	(Whereupon, no verbal

23	SUPERVISOR SALADINO: Please let the

10	TOWN ATTORNEY: A motion to adjourn				
11	for this evening.				
12	SUPERVISOR SALADINO: Before we do				
13	that, is there any correspondence?

2	SUPERVISOR SALADINO: Would you
3	please call the next hearing?
4	TOWN CLERK: The second hearing is
5	to consider a new Local Law to extend the
6	Town's Battery Energy Storage System
7	("BESS") Moratorium for an additional six
8	(6) month period.
9	SUPERVISOR SALADINO: Good
10	afternoon, Counselor. How are you today?
11	DEPUTY TOWN ATTORNEY: Good
12	morning, Supervisor and members of the
13	town board. Elizabeth Faughnan, Deputy
14	Town Attorney, Office of Town Attorney.
15	Good morning.
16	I come to you this morning to
17	present a proposed new local law
18	regarding our (BESS) Battery Energy
19	Storage System Moratorium. And please
20	bear with me. I know that you are all
21	very familiar with the topic and with the
22	moratorium, but for purposes of the
23	record.
24	On February 27th of this year, the
25	Town Board held a hearing regarding
I	TOP KEY COURT REPORTING, INC. (516) 414-35164

	10.15.2024 TOBAY TOWN BOARD HRG 2
1	-10.13.2024 IODAI IOWN BOARD HRG 2
2	enacting a BESS moratorium, which was
3	adopted by Resolution 302-2024. That
4	moratorium became effective on April
5	15th, when it was filed through the
6	Secretary of State's office.
7	At our last Town Board meeting on
8	October 1st, the Town Board adopted
9	resolution 773 of 2024, which extended
10	the moratorium from its expiration today
11	until such time as the Town Board could
12	adopt a new local law to extend the
13	moratorium and have it properly filed
14	with the Secretary of State's office.
15	I come to you this morning to
16	present the new proposed draft local law.
17	As you all know, when today's hearing was
18	advertised on October 1st, by resolution
19	772 of 2024, the Town Board authorized
20	today's hearing. There was a draft local
21	law attached to that resolution. In
22	consultation with the Department of
23	Environmental Resources and the Office of
24	the Town Attorney, we have made several
25	proposed changes, which all should have

______TOP KEY COURT REPORTING, INC. (516) 414-3516 ______5 ___

1	10.15.2024 TOBAY TOWN BOARD HRG 2
2	been received by your office late last
3	week, which basically regarding tweaks in
4	the language of the proposed local law
5	that we're discussing today.
6	Just to make it clear to members of
7	the public, for instance, the initial
8	draft said it was a local law to adopt a
9	six month moratorium. We simply stated
10	the changes that we are stating it's to
11	adopt a moratorium because the period in
12	the local law will remain six months. But
13	of course, it will be available to the
14	extent by the Town Board, if necessary.
15	We provided that to you last week. We
16	have it. The revised local law has been
17	available on the Town website for members
18	of the public. I also have copies of that
19	local law change here today, in case
20	there are members of the public that
21	would like to see what's been changed
22	since the last Town Board meeting.
23	Having said all of that, we're all
24	very familiar with the topic. In order to
25	save you from repeating what you already

2	know, I have with me certified copies of
3	the Town Board minutes from the February
4	27th Town Board hearing regarding the
5	initial moratorium. I also have a copy of
6	the Town Board minutes regarding the
7	hearing held on July 23rd regarding
8	Calpine's request for an exemption from
9	the moratorium. And I also have a
10	certified copy of the minutes of the Town
11	Board hearing held on October 1st
12	regarding that extension of the
13	moratorium. By submitting these to the
14	Town Clerk today, I would like them
15	included in the record, and it is as if
16	each one of those speakers was standing
17	before you here today saying those very
18	same things. So I'm going to hand them
19	up. Clerk now, for the record.
20	(Whereupon, certified copies
21	of February 27th Town Board
22	hearing; July 23rd Calpine;
23	October 1st extension of the
24	moratorium transcripts handed
25	in to the Clerk's Office and to

2	be referred to as part of this
3	record.)
4	SUPERVISOR SALADINO: I'm just going
5	to ask you if you could wrap up by just a
6	couple of sentences, tell the public what
7	the purpose of today's hearing is
8	specifically and in regular speak.
9	DEPUTY TOWN ATTORNEY: I'm an
10	attorney, so that's hard.
11	In regular speak. The Town Board had
12	enacted a moratorium, which means that
13	the Town could not receive any new
14	applications and could not act on any
15	applications already received by the Town
16	regarding the installation of a battery
17	energy storage system. So it's like it's
18	frozen in time.
19	SUPERVISOR SALADINO: Yes, and today
20	the purpose of this hearing is to
21	DEPUTY TOWN ATTORNEY: Is for the
22	Town Board to consider a new local law to
23	extend that moratorium for another six
24	month period. Last spring, when the first
25	moratorium was enacted, the State had not
	TOP KEY COURT REPORTING, INC. (516) 414-3516

	10.15.2024 TOBAY TOWN BOARD HRG 2
1	
2	yet proposed standards for battery energy
3	storage systems. In the time that has
4	passed, the State has come up with
5	proposed standards. They were put out to
6	the public for public comment. The public
7	comment period is closed, but no new
8	standards have been enacted.
9	This Town is very concerned
10	regarding the safety of our residents and
11	of the environment. We want to protect
12	both. And as a result, it is our
13	recommendation that the Town Board adopt
14	this new moratorium to adopt this new
15	local law, to extend the moratorium for a
16	period of six months.
17	We have submitted it to the Nassau
18	County Planning Commission, whose next
19	meeting is October 22nd. The Town Board
20	also does have to wait for their
21	recommendation before they can adopt the
22	local law. But is our request that you
23	that you do adopt this law.
24	SUPERVISOR SALADINO: And one more
25	clarification, please, for the public.

	10.15.2024 TOBAY TOWN BOARD HRG 2
1	
2	People have come to me and said, well,
3	why don't you just make this why is it
4	every six months? And I tried to explain
5	there's a constitutionality issue there.
6	In very regular terms, can you please
7	explain that to the folks why we're doing
8	this?
9	DEPUTY TOWN ATTORNEY: Because
10	people have rights in their property. And
11	by just putting a flat moratorium, you're
12	saying essentially your property is not
13	worth and you can't do with it what a
14	property owner believes they can. So the
15	the law does have to allow the ability to
16	appeal the opportunity for the issue to
17	be reassessed, to determine if the
18	situation has changed.
19	SUPERVISOR SALADINO: And if we had
20	a period much longer than six months and
21	they challenged us in court, we might not
22	win that challenge.
23	DEPUTY TOWN ATTORNEY: We definitely
24	would not win that challenge.
25	SUPERVISOR SALADINO: Thank you very

2	much. Anything else? Does anyone have any
3	questions for our counsel?
4	(Whereupon, no verbal
5	response.)
6	DEPUTY TOWN ATTORNEY: The only
7	thing I would ask, Supervisor, that after
8	members of the public speak, when the
9	Town Board does make its motion later in
10	the day, if you would please close the
11	public portion, but leave the record open
12	for 12 days, which will allow an
13	opportunity for our experts to put in
14	their written opinion and would also
15	allow us to put in the recommendation of
16	the Planning Commission.
17	SUPERVISOR SALADINO: Thank you.
18	DEPUTY TOWN ATTORNEY: Thank you,
19	Supervisor.
20	SUPERVISOR SALADINO: Appreciate it.
21	At this time, we have some speakers,
22	and we'll move on toward listening to
23	folks who have come here to be heard. Our
24	first speaker today is Doug Augenthaler.
25	We'll ask everyone to begin by
l	TOP KEY COURT REPORTING, INC. (516) 414-351611

1	10.15.2024 TOBAY TOWN BOARD HRG 2
1	
2	giving us their full name and address.
3	For the record, please.
4	MR. AUGENTHALER: Good morning. My
5	name is Doug Augenthaler. It's spelled
6	a-u-g-e-n-t-h-a-l-e-r, which is why they
7	call me Doug.
8	I have a few highlights here. I'm
9	intending to write you all a personal
10	note about my feelings here.
11	My concerns, number one, lack of
12	transparency. Propel and Jupiter projects
13	are deeply intertwined. They advertise
14	them as being very, very separate
15	projects. But trust me, battery storage
16	is not necessary. We haven't got high
17	voltage lines to feed the power. And the
18	high voltage power lines are useless
19	without battery storage. These are
20	intertwined. They're advertised as
21	separate projects. It's disingenuous of
22	them, at a minimum, to imply that these
23	are separate projects. I have a real
24	problem with that lack of transparency. I
25	have a real problem with people who

	10.15.2024 TOBAY TOWN BOARD HRG 2
1	10.13.2024 IOBAI IOWN BOARD HNG 2
2	mislead me to my face. I hope the Board
3	has the same concerns that I do.
4	Second is fire risk. There's
5	obviously a fire risk here. It's a small
6	risk, obviously a small, but it's not a
7	zero risk either. We have volunteer fire
8	departments that are straining with their
9	memberships. How they would respond to
10	this? I have no idea. I haven't spoken to
11	our local fire department. I hope you are
12	speaking to local fire departments about
13	how they can and will respond if there is
14	a fire; God forbid. But it's important to
15	have their input. I hope you're getting
16	them input.
17	Third issue is timing. What's the
18	rush? Why are we in such a hurry to do
19	this? I'm not anti-green, but I do know
20	from my work that if we wait five, six,
21	seven, eight years, there's going to be
22	better battery technology that doesn't
23	have the same fire risks. There's no
24	reason to do this right now. Why not wait
25	for the better technology?

2 If you're concerned about global 3 climate change, understand that science is not fact. Science is the current state 4 5 of knowledge, which is always changing. 6 And let's hope that science today is 7 wrong, because looking at the power 8 demands of artificial intelligence, 9 looking at the power demands coming from 10 China and from India, we have no hope of 11 hitting global climate targets. No hope. 12 There is zero possibility of hitting 13 those targets. So let's hope that they're 14 wrong, because otherwise we're all done 15 for anyway. There's no rush to do this. 16 Last issue is private equity. 17 Obviously Jupiter is private equity owned 18 company. They want to get this done 19 quickly. It's important for them to make 20 money for their shareholders, etc.. But 21 that's the problem I worked on Wall 22 Street most of my career. I worked for 23 big Wall Street companies. I know how 24 Wall Street works. They work for 25 shareholders, not for stakeholders. The

	10.15.2024 TOBAY TOWN BOARD HRG 2

2	people that live in this community are
3	important stakeholders that need to be
4	taken into account. And private equity,
5	for the most part, really doesn't. And it
6	needs to be very clear understood.
7	This is a safety issue. There are
8	countless issues in history about things
9	that have gone awry because safety was
10	overlooked or minimized. Boeing being a
11	classic example right now, let's not make
12	the Town of Oyster Bay the next example.
13	Thank you.
14	SUPERVISOR SALADINO: Our next
15	speaker will be Joan Matthews.
16	MS. MATTHEWS: Hi. Good morning,
17	everybody.
18	SUPERVISOR SALADINO: Good morning.
19	Would you kindly begin with your full
20	name and address for the record?
21	MS. MATTHEWS: You got it. My name is
22	Joan Matthews. I live at 180 Scudders
23	Lane, Roslyn Harbor.
24	Just to know that I'm just opposing
25	continuing of people progressing without
	TOP KEY COURT REPORTING, INC. (516) 414-351615

2	a moratorium for the BESS. So I'm talking
3	both behalf on Glenwood Landing as well
4	as any other ones that are coming in the
5	future.
6	Basically, I'm speaking on behalf of
7	myself and others that cannot be here
8	today because most of the town halls are
9	during work hours. I work in healthcare.
10	Very difficult. I had to pull the
11	personal day to get here today. Sorry if
12	you're seeing me on camera, but I have
13	permission (laughter). So anyway, I had
14	to take a day off, and a lot of people
15	cannot afford to do that. And
16	unfortunately they don't know about stuff
17	that's going on.
18	So my question to is that the
19	companies that have financial gain, that
20	use paid lobbyists to push their agenda
21	despite the health and safety risks of
22	the residents, are targeted to house the
23	BESS facilities and the power lines
24	connecting to them; are these things
25	being considered? I'm not opposed to

	10.15.2024 TOBAY TOWN BOARD HRG 2

2	green energy, but not at the detrimental
3	lifelong, currently unknown cost of
4	human, domestic animals, our pets and
5	then wildlife, which may also affect the
6	food that we ingest because everything
7	eats everything else.
8	Health and safety in comparison to
9	the limited benefits, especially to those
10	in the immediate as well as surrounding
11	areas that they tend to overlook past
12	500ft, and then the companies, the
13	reasons why are below.
14	So the risk contamination of both
15	drinking water aquifers below it, but
16	also to the waterways across the street
17	from the Jupiter as well as to Propel
18	sites. But we also have to know about
19	there's a lot of flooding in the area.
20	There's rising waters, which again, put
21	the ones in Glenwood at risk for fires
22	because that's a catalyst. But remember,
23	also the runoff from our streets, from
24	the fires that have been fought, goes
25	right into our waterways, and that's
	TOP KEY COURT REPORTING, INC. (516) 414-351617

	10.15.2024 TOBAY TOWN BOARD HRG 2
1	
2	contamination to our sea life. Because a
3	lot of people do local fish, and then
4	we're eating in our restaurants.
5	What are the long term effects of
6	the chemicals released into the
7	atmosphere for the physical fallout, as
8	well as what we're inhaling? It's going
9	to go down into the aquifers and the
10	outdoor surfaces.
11	How are we going to even begin to
12	clean every blade of grass and piece of
13	dirt? Who's going to pay for that?
14	Hazardous air quality for those
15	residents, or more important, to the
16	volunteer fire department. Actually, at
17	the mini mart in Sea Cliff, I did speak
18	to a bunch of firemen my whole entire
19	family of volunteer firemen and the
20	firemen in Long Island are primarily
21	volunteer. So what's going to entice
22	people to go and try to fight those? My
23	dad many times working all day long, got
24	up in the middle of the night, went to a
25	fire, got up in the morning, went right

2	to work. Didn't get to sleep. Did this
3	for many years as do all the people that
4	that volunteer their time. How many
5	people all over are not going to go to
6	that call?
7	The other thing too is, I know that
8	the Fire Department does have a cease and
9	desist order because Jupiter is telling
10	people that they they support it. A
11	couple of the members of the Fire
12	Department did tell me that Jupiter has
13	sent people that represent them that are
14	firemen, whether they're in your
15	department or New York City Department of
16	Fire, but what happened was they claimed
17	that they were going to teach them about
18	hazardous stuff. They did not. They
19	basically were pushing the benefits of
20	the BESS.
21	Who knows, are people being bribed
22	by being bought fire trucks or equipment,
23	not even to have to fight these fires?
24	What about the amount of people that
25	flood the ER due to reactions? Think of

the people that have baseline emphysema,
Asthma, Chronic obstructive pulmonary
disease. On top of those, healthy people
that are now coming in with respiratory
issues; can the hospitals handle it?

We live in congested Long Island, so evacuation is not an option. Who's going to pay for that lodging if somebody does have to go somewhere? Because we're already strained to begin with. Who's going to pay for the food, the transportation? And what about those that don't have transportation to leave?

Why does Long Island have to bear the BESS facilities and the power lines when the benefit to us is very limited?

Whose home is really airtight?

Why are we rushing to put something when fire codes are not even up to date, and long term effects aren't even know?

Is the cost of pulling power off the grid at a very cheap price? It might be worth us having to pay more for it to actually use it if we do get to use them.

2	Both Jupiter and Propel felt that
3	it's not worth their time to come to our

6	multiple attempts to reach out to them

9	Also, the companies do need to
10	enlarge the areas for which they're going
11	to plan these things because the air does
12	blow past 500ft. Perfect example is the
13	placement of signs for Calpine. The
14	people I spoke to at the last town

16	in that area, and they were surprised
17	that we questioned the fact that it's not
18	all industrial. We need to consider
19	rezoning these areas so that these places
20	could not be put in densely populated
21	areas.
22	Maybe these companies should have to
23	sell power to their own companies
24	upstate.

4	Exposure to DuPont chemicals. Erin

7	ways to conserve power and not at

9	So thank you for your time. Let's,
10	wait before it's too late. And let's
11	pause for a good cause for our health and
12	safety. Thank you for your time.
13	SUPERVISOR SALADINO: Thank you.
14	Thank you also to your family, all the
15	volunteer firefighters. So important that
16	we continue to recognize and appreciate
17	all of those who put their lives and
18	safety at risk for our protection and the
19	protection of our property. And volunteer
20	firefighters, as well as those in law
21	enforcement, do exactly that. We
22	appreciate it.
23	Just wanted to also point out to
24	everyone that this proposed moratorium is
25	not specific to any one site or any one

2	application. It is in general. So thanks
3	for letting me point that out.
4	Maria, you are our next speaker.
5	MS. SLOVODSKOY: Good morning. My
6	name is Maria Slovodskoy, it's
7	S-l-o-v-o-d-s-k-o-y. I'm live at 20
8	Sylvia Street and Glen Head. I'm a
9	lifelong resident of Glen Head.
10	Of course, I want to support the
11	moratorium. I have very serious concerns
12	regarding this project. And as Doug
13	mentioned, I think that for a long time I
14	didn't understand that these three
15	projects, the windmills, the Propel and
16	the storage unit facility are all
17	interconnected. I think that sometimes
18	maybe lawmakers and business people, they
19	look at a map and they say this looks
20	like a good place for one of these units
21	without taking into consideration the
22	population density of the area.
23	All of our schools are within a very
24	close proximity to the storage unit and
25	to the road, Glen Head Road which becomes
I	TOP KEY COURT REPORTING, INC. (516) 414-351623

1	10.15.2024 TOBAY TOWN BOARD HRG 2

2	Glenwood Landing Road. Many children
3	walk to school every single day along
4	those roads. And do we know what would
5	happen if they're exposed to these high
6	voltage cables on a daily basis from for
7	nine, ten months of the year? The
8	Glenwood Landing School is a stone's
9	throw away from the battery storage unit;
10	although, the middle school is just up
11	the road, the high school and and the
12	Glen Elementary School.
13	I'm a retired teacher, and my
14	husband taught also 30 years at the
15	Glenwood Canyon School. Neither one of us
16	can imagine what it would be like to have
17	to shelter in place over 300 children for
18	a couple of days, or possibly even a week
19	if there was some dangerous fire at that
20	battery storage unit. These children are
21	from the ages of 4 or 5 years old to ten
22	year old at the Glen Landon School 11,
23	12. How would that even be handled? And
24	would it even be a safe place to keep
25	them? None of our houses are airtight,

2	not to mention the school itself.
3	Anybody who knows the area and I
4	just can't understand this it's such a
5	bottleneck. I mean, we love it, right?
6	It's beautiful, it's a great community,
7	but there's no evacuation route. As soon
8	as there is any kind of a big rainstorm
9	with branches coming down or a serious
10	car accident or construction on our
11	roads, there's traffic. You know, you
12	sometimes have to stand through a red
13	light 3 or 4 times to get across Northern
14	Boulevard. There's just no quick way out
15	of the area, if indeed anything were to
16	happen. And there's so many businesses
17	and homes right along the route where
18	Propel is planning to put their high
19	voltage cables.
20	Finally, we live in a day and age
21	where there's terrorism in the world.
22	When I went to the meeting in the
23	summertime for the battery storage unit
24	they told us that there wouldn't be
25	anybody there, that it would be monitored
	, , , , , , , , , , , , , , , , ,

2	remotely. So what would be the safety of
3	that area for anybody who wants to do us
4	harm? It's on kind of an isolated area.
5	There's nobody down there most of the
6	time. How would we protect that area?
7	So lots of concerns for the health
8	and safety of of the people that live in
9	this area, but also for our total
10	environment for Long Island. The
11	windmills on the south shore, the cables
12	coming up our community roads, and then
13	the danger of the storage facility, which
14	is a large facility which is generally
15	not put into a residential area, but
16	really into a remote area. Thank you very
17	much for your attention.
18	SUPERVISOR SALADINO: Thank you very
19	much.
20	The speaker will be Robert Bozella.
21	MR. MAZELLA: Robert Mazella, Glenn
22	Head, 36 Beachwood Drive. I'm here as a
23	volunteer representative for the Glen
24	Head/Glen Head Landing Civic Council,
25	once again reiterating how civic

2	organizations strongly support an
3	extension of the Town's moratorium on the
4	BESS facilities until local towns have
5	the time to review long term studies to
6	show these facilities are not
7	jeopardizing the health and safety of our
8	neighbors, children, volunteer
9	firefighters and environment.
10	Over the course of the last few town
11	meetings, we've heard many people speak
12	about the hazards associated with lithium
13	battery fires. We also keep hearing about
14	lithium battery fires in the news. Likely
15	realizing there's a public relations
16	issues associated with large scale BESS
17	facilities, the Governor's Office appears
18	to be making an attempt at damage
19	control. Unfortunately, the proposals
20	that everyone is waiting for from the
21	Energy Safety Response Group seemed to
22	reek of the old quote from former Texas
23	Governor Ann Richards, "You can put
24	lipstick on a hog and call it Monique,
25	but it's still a pig". Except in this

2	case, we can all call the hog "Bessie".
3	At the last meeting, I mentioned
4	that in an interview on ABC news, a
5	member of the aforementioned energy
6	safety response group was quoted as
7	saying, "let it burn" when they asked,
8	what do you do if one of these facilities
9	goes on fire, giving mandatory evacuation
10	zone and shelter in place requirements
11	associated with the BESS facility fires.
12	I believe we deserve a better response:
13	Don't let it burn.
14	So I'd like to ask all of you about
15	your level of comfort with the
16	recommendations that will be coming from
17	this group. When these recommendations
18	are officially issued, I'd ask that you
19	please consult with the Nassau County
20	Fire Marshal's Office to determine if
21	these recommendations truly protect us,
22	or is it simply an attempt to put
23	lipstick on a pig? I believe we should
24	all be taking the advice of people like
25	Joe Rowley. Mr. Rowley is a former

4	and has said he's against projects that
5	are too close to homes and says large

11	the street from the saltwater harbor and
12	in close proximity to three schools and a
13	school bus depot, is beyond any semblance
14	of logical and safe planning.
15	All of us should be very concerned
16	about the Governor's Rapid Act. It is
17	going to result in an appointed person in
18	Albany, some 170 miles away, unilaterally
19	and without any local input, making
20	decisions that can threaten the health
21	and safety of all Long Islanders for what
22	that person is being told might be a

18	me to my little speech.
19	Nassau County pays one of the
20	highest property taxes in the country.
21	And hopefully, the voice that you say
22	that we do have is important to this
23	overall moratorium and future battery
24	storage decisions that are made.
25	So what I would like to know is why

5	and why should they be approved over us
6	who live in the community and have
7	thrived here and enjoy this quality of
8	life, and are now going to be threatened
9	by outside sources from other companies
10	that say that we have an electric issue?
11	That kind of bothers me. Personally, I
12	don't think that being all electric is a
13	smart thing. And I don't know where all
14	of you stand, but I think it's kind of
15	moronic that we are going to be totally
16	electric by the end of, what, 2050 now?
17	SUPERVISOR SALADINO: If I may ask
18	you to pause for just a moment. You can
19	stop the clock.
20	That Legislation did not come from
21	this town, nor would it. And I'm guessing
22	that you know where to focus your ire
23	when it comes to legislation that does
24	this sort of thing, these sort of

5	MS. COSTELLO: I know.
6	SUPERVISOR SALADINO: Good. And I
7	just want to clarify one other issue. You
8	seem you posed as a question why one
9	group has more rights over the other,
10	that doesn't exist in this town. And
11	we're very proud of that fact. And the
12	fact that we've already past a moratorium

15	Bay.
16	MS. COSTELLO: Yes.
17	SUPERVISOR SALADINO: Thank you.
18	MS. COSTELLO: But didn't this lawyer
19	at the beginning say that we might lose
20	in court?
21	SUPERVISOR SALADINO: In court. I
22	asked the question and we have an
23	attorney who can clarify things I
24	asked the question because people come to
25	us all the time, why only a six month
I	TOP KEY COURT REPORTING, INC. (516) 414-351632

10.15.2024 TOBAY TOWN BOARD HRG 2 1 2 moratorium? We don't want a six month. 3 We want this, so we want that. And what I explained to them is, first of all, we 4 5 don't make any decisions until we've 6 heard from everyone on both sides of an 7 issue and give the public time to respond 8 via e-mail, letter or phone call. But 9 what I was trying to point out is the 10 answer to the question, so people 11 understand why we present this as a six 12 month moratorium. Everyone in America, 13 because of the United States 14 Constitution, has constitutional rights 15 as what they can do with their property, 16 including apply to government for a 17 change of use or in this case, for this type of use. So my point was just to 18 19 explain why we're doing this in a six 20 month period of time, so that we can 21 protect the constitutional rights of 22 anyone making an application. And if we 23 were challenged in court, if we did it 24 differently, a judge might rule against 25 the Town's moratorium. So there is the

And this 6 is just the hearing to extend the 7 moratorium. 8 MS. COSTELLO: I understand that, I 9 understand that. But what I'm saying, I'm 10 hoping that our rights as residents of 11 this town really do outweigh the rights 12 of anybody who comes in here and wants --13 because this moratorium is going to end 14 one way or another. So what I am saying 15 that what makes our rights more or less 16 than the company who wants to come in 17 here and have rights? 18 COUNCILMAN IMBROTO: We take your 19 voices very seriously, and we value all 20 of your opinions. 21 MS. 2	MS. PANZECA: Good morning,
3	supervisor and town board. Too many times
4	we hear the word "experiment" regarding
5	these planned projects for Long Island.
6	From a Senator referring to battery
7	storage as a failed experiment, to
8	Channel 12 news reporting on the South
9	Fork Wind project, and the global
10	investments taking place for the
11	experiment off of our shores. We know we
12	need a cleaner way of doing things that
13	will be reliable and responsible, not one
14	that's intermittent, questionable as to
15	supplying our reliable and responsible
16	baseload energy needs. However, we
17	continue to hear experiments and they
18	continue to push these experiments into
19	our communities. This should cause us all
20	pause. These projects don't impact dots
21	on a map. They impact human lives,

3	Once again, we expect you all to
4	extend the BESS moratorium and not allow
5	exemptions for poor decision making on
6	the part of PE backed firms. The BESS
7	moratorium will prevent this rush to

18	source aquifers, communities or the
19	environment. The 500 foot notification
20	rule might be law, but for communities
21	and something like this BESS, it should
22	be required to notify all residents by
23	now within a few miles, which would be
24	the evacuation zone, and then attend a

present and address the concerns of residents. Instead, these BESS companies and their proponents avoid residents. Who is their fiduciary duty to? Who represents the residents? They never addressed the realities of the dangers being pushed on our communities. They should be required to present all sides of the situation to all residents, not just the glossy print sales campaigns to select members of the community. We know the realities of a 2 megawatt to 250 megawatt facility event, and at every size, these BESS put resident health and safety at risk. Yet these ticking time bombs are pushed into our community on top of our homes, schools, waterways to meet contracted numbers on a piece of paper over

residential safety.

mitigation to be on site to assist local responders, inclusive of hazmat. Where does that leave residents?

You have fencing signage for not only emergency responders, but for the public that identifies safe distance and site vulnerabilities. What additional risks does that open us up to?

You have remote operations monitoring with no onsite professionals or hazmat fire teams. Why is cyber risk okay in that instance, but when they want to put video monitoring at these sites, it's an issue for stakeholders because of cyber risk? The stakeholders want a best effort and to not be penalized when it comes to ensuring inclusion of first responders in emergency response planning and training.

2	Gray. Mr. Gray, if you would, please.			
3	Thank you for your patience.			
4	MR. GRAY: Garrett Gray, Weber law			
5	Group, 290 Broad Hollow Road, Melville,			
6	New York. Again, I am the attorney for			
7	Calpine Corporation.			
8	Mr. Supervisor, you began this			
9	hearing by noting that moratoria and			
10	zoning regulations are in derogation of			
11	property rights; therefore, they should			
12	be strictly construed and a moratorium			
13	should only be in place as long as			
14	necessary.			
15	As deputy town attorney Faughnan			
16	reported, the final report of the New			
17	York Working Group has come out and			
18	public comment has closed. The only			
19	remaining item is the codification of the			
20	report's recommendation, which certainly			
21	is not going to take six months.			
22	I understand that this BESS			
23	moratorium was initially put in place			
24	back in April or so for six months while			
25	the New York Fire Working Group was

2	conducting its study, issuing a draft
3	report. That has passed now. I would
4	therefore propose that an additional six
5	months is not necessary. I would limit it
6	to three months maximum. Indeed, the
7	Suffolk County Planning Commission has
8	said that BESS moratoria should not
9	extend beyond the Fall of 2024, and told
10	Islip and Smithtown that they could only
11	extend their moratorium by a period of
12	three months. And that was due to the
13	fact that the Final Working Group were to
14	come out and even now the public comment
15	is closed.
16	Also, the last speaker urged you to
17	join with what other towns were doing.
18	The Town of Islip, which issued as this
19	town did, a blanket wide moratorium on
20	BESS systems, very recently modified
21	their moratoria to exclude tier one
22	operators, which are 80MW or less, as it
23	did not have the danger that a larger
24	system would have, and, therefore, be
25	required to be within the moratoriums

3	Jupiter, which is the subject of all the
4	speakers is 275MW, is in a residential
5	neighborhood, abuts waterways; everything
6	that we are not.
7	In conclusion, I would request that
8	any moratorium extension be limited to
9	three months. If at the end of the three
10	months, the codifications you're looking
11	for have not come out, we can always do
12	it again.
13	Finally, I would request that you
14	follow the example of the Town of Islip
15	and exclude tier one 80MW or less BESS
16	operators from the moratorium. Thank you.
17	SUPERVISOR SALADINO: Thank you very
18	much, Mr. Gray.
19	That's all the speakers that I have
20	at this time.
21	Is there any correspondence?
